How one measured call works

This note is the Version 11 call 20261102T104218Z. The prepared lines were sent to the local page, the page spoke each reply, and the log stored the tokens and character counts from that pass.

The three steps

Saaras v4 is ready to hear a microphone clip. On this pass the customer lines were sent as text, so no clip was uploaded. The script then looks for a written reply. Bulbul v3 speaks the chosen line as Ishita, and a clause Bulbul does not return is spoken by the Neerja fallback.

A written reply is used whenever the script recognises the line. sarvam-105b-conversations is called only when no written line matches. On this call that was generate_response, six times.

Where each line came from

Turn	Customer	Spoken line	Source
1	—	Hi, this is Sobha Limited calling. I'm getting in touch about our residential projects in Bengaluru. Is now a good time for a quick call?	written greeting
2	Yes, I can speak now.	Thanks for taking the call. Which part of Bengaluru are you considering — North, East, or South?	written, projects.py AREA_QUESTION
3	I am looking in North Bengaluru.	Are you looking at this to live in, or as an investment?	written, projects.py PURPOSE_QUESTION
4	It is to live in.	We have Chartered Birdsong, near Rajanukunte, whose price starts from INR 1.2 Crore. Would you be interested to know about the project?	written script, qualify
5	You can tell me about that.	Chartered Birdsong is a Luxury Villa Plots project at Rajanukunte, off Doddaballapur Road. Chartered Birdsong offers 933 to 5000 sq. ft. Would you like to know anything else about the project?	written script, answer_faq
6	What is the price?	Chartered Birdsong starts from INR 1.2 Crore.	project card, price
7	What amenities does it have?	I don't have that detail for Chartered Birdsong right now; our sales team can share the latest information.	project card, amenities
8	What is the possession timeline?	The possession timeline is not confirmed in the available details. Would you like me to share what is currently available?	language model, generate_response. generate_response: prompt 1148, cached 0, completion 23
9	Yes, tell me the approval status.	The approval status is not confirmed in the available details. Would you like me to share the project features instead?	language model, generate_response. generate_response: prompt 1183, cached 0, completion 23
10	Please speak in Hindi.	जी, मैं हिंदी में बात कर सकता हूँ। Chartered Birdsong प्रोजेक्ट Rajanukunte में Doddaballapur Road के पास है। क्या आप इस लोकेशन के बारे में और जानना चाहेंगे?	language model, generate_response. generate_response: prompt 1181, cached 480, completion 40
11	Please tell me who the	Builder Sobha है। क्या आप प्लॉट साइज के	language model,

	builder is.	बारे में जानना चाहेंगे?	generate_response. generate_response: prompt 1212, cached 0, completion 16
12	Please speak in English.	Chartered Birdsong offers 933 to 5000 sq. ft. Yes, I will speak in English. Chartered Birdsong is located in Rajanukunte, off Doddaballapur Road. Would you like to know more about the plot sizes?	language model, generate_response. generate_response: prompt 1185, cached 480, completion 56
13	No, I'm good.	Would you like to schedule a site visit to Chartered Birdsong?	written script, propose_slot
14	Yes	I will have our sales advisor get in touch with you about a visit to Chartered Birdsong. Have a good day.	written, ADVISOR_CLOSE

Written lines

Turn 1 is the fixed greeting. Turn 2, “Yes, I can speak now.”, asks the area question from projects.py. Turn 3, North Bengaluru, asks the purpose question from projects.py. The configuration question was not spoken on this pass.

Turn 4, “It is to live in.”, stays on the written catalog and offers Chartered Birdsong, near Rajanukunte, from INR 1.2 Crore. Turn 5, “It is to live in.”, stays written and speaks the place and the size, 933 to 5000 sq. ft.

Turn 6, “What is the price?”, is the project card for price: Chartered Birdsong starts from INR 1.2 Crore. No chat request was made. Turn 7, “What amenities does it have?”, is the project card for amenities. The card’s line is that this detail is not on the card, and the sales team can share it. No chat request was made.

Turn 13, “No, I’m good.”, is the written visit offer. Turn 15, “Yes”, closes with the sales-advisor line.

When the language model is called

Six turns reached generate_response. The model is sarvam-105b-conversations at temperature 0.1. Each request below is the usage Sarvam returned. Cached tokens are priced at ₹5 per million. The other prompt tokens are priced at ₹15 per million. Completion tokens are priced at ₹60 per million.

Turn 8, “What is the possession timeline?”, and turn 9, “Please tell me the approval status.”, are not price, place, size, or amenities, so the card returned nothing. The model said each detail is not confirmed. Turn 8 is prompt 1,148, cached 0, completion 23. Turn 9 is prompt 1,183, cached 0, completion 23.

Turn 10, “Please speak in Hindi.”, switched the spoken language and called the model. Prompt 1,181, cached 480, completion 40. The reply was translated before Bulbul spoke it. Turn 11, “Please tell me who the builder is.”, called the model again and the reply was translated. Prompt 1,212, cached 0, completion 16. Turn 12, “Please speak in English.”, switched back and called the model. Prompt 1,185, cached 480, completion 56.

Together that is 5 requests, 7092 prompt tokens, 960 cached tokens, and 205 completion tokens. The language-model amount is ₹0.1091 excluding GST and ₹0.1287 including GST.

What this call consumed

Rates are the pay-as-you-go rates cost note.

Part	This call	Rate	Amount
Language model	5 requests. Prompt 7092, cached 960, completion 205.	₹15, ₹5 cached, and ₹60 per million tokens	₹0.1091 excluding GST; ₹0.1287 including GST
Speech to text	No microphone clip was uploaded. The customer lines were sent as text, so the log has no audio seconds.	Saaras, ₹0.49 per minute	Not calculated
Bulbul	1772 characters posted to bulbul:v3. Neerja spoke 284 fallback characters, and those are not in this price.	₹3 per 1,000 characters	₹5.3160 excluding GST; ₹6.2729 including GST
Translation	2265 characters posted to sarvam-translate:v1. While the call was still English, the fixed qualification lines were posted for Hindi, Kannada, Tamil, Telugu, and Malayalam. Turns 11 and 12 also translated the lines Bulbul spoke.	₹2 per 1,000 characters	₹4.5300 excluding GST; ₹5.3454 including GST

The priced total, without speech to text, is ₹9.9551 excluding GST and ₹11.7470 including GST. Speech to text stays outside that total because this pass did not upload audio.
